

RPC-860

19" 6U Rack-mount CTI Chassis

Detachable card cage

RPC-860 is equipped with a detachable card cage to ease card installation. It is convenient to link the cables between CPU cards and devices.

Replaceable back panel for power supplies

For non-stop operation under CTI systems, its modularized back panel design helps install single or dual PS/2 400W + 400W redundant power supply.

Replaceable back panel for different backplanes or ATX motherboards

By changing the modularized back panel, different 20-slot backplanes or ATX and baby AT motherboards can be installed into RPC-860.

Replaceable function panel

Three modular designed function panels are available for single, dual and quad systems display. Any OEM project is welcome.
