

ME-758GNS ~ SOHO Gigabit NAS Box

NetShare Gigabit NAS Box is a desktop single drive NAS device which aims to offer home users a simple solution for sharing files over internet. The NetShare is a lot more than mere storage – it offers an affordable network attached storage solution, specifically designed for small business & workgroup users who need to grab and share data without limit. The NetShare offers both USB3.0 and Gigabit Ethernet options for data access and it is also very energy efficient, consuming considerably less power than a full on PC. The NetShare supports FTP/SAMBA file sharing over network. It can be a BitTorrent download agent, you can download the torrent files and then let the downloading task runs on your NetShare free from PC. The user-friendly NAS operation interface features a simple configuration and management for common users, no complicated setup is required. The user can also use the NetShare as a simple external USB storage for convenient application.
