

*WiFi TV Converter*  
( for Android & APPLE device)

*Mode No.: WTV101*

*Introduction*

The Wifi TV converter is an efficient, user-friendly accessory for viewing live free-to-air TV content on Android and Apple devices, and is compatible with DVB-T and ISDB-T (one-Seg) digital TV transmissions. Wifi TV creates its own private WiFi network for use by the mobile device and there is no need to search for an internet connection or use cellular data airtime. Download the free SianoTV application from the App Store or Google Play, watch TV and enjoy.

*Feature*

- Watch Live TV
- Fast Channel Scanning
- Support Auto Channel Scan
- Support Electronic program guides
- At least watch up 3 hours of TV
- Watch TV on iPad/iPhone/Android Phone
- Support 802.11b/g/n Wi-Fi standard

- Wi-Fi Router built-in
- Auto power saving when idle 5 minutes
