

5M IEEE-1394b Extension Cable

The IEEE-1394b repeater cable is not a passive extension cable. It could be cascaded (up to 10) to extend the distance of up to 50M (5M each cable) between IEEE-1394b devices and your computer, and regenerate the IEEE-1394b signal for maximum reliability and performance over extended distances at maximum transfer rate of 800Mbps.

Features:

- With the newest version of 1394 multimedia standard; adds bandwidth, distance and new arbitration
- Provides the fastest transferring rate at up to 800 Mbps
- Provides better signal-to-noise ratios and less jitter than other applications
- Features the best connection for DTV and HDTV for the time being
- Plug & Play and Hot-Swapping mode
- Support: Windows 98SE / ME / 2000 / XP / Vista . Mac OS

Model	FR-200	
Chips	TI	
Speed/Mbps	100/200/400/800 Mbps	
Connector	Host	IEEE-1394b 9P Male
	Device	IEEE-1394b 9P Female
Power Mode	Bus	
Cable Length	5m IEEE-1394b	
Housing	Plastic
