ACECAD®

DigiMemo A502

Digital Notepad with Memory

The DigiMemo A502 is a stand-alone device with storage capability that digitally captures and stores everything you write or draw with ink on ordinary paper, without using a computer or special paper. Then you can easily view, edit, organize and share your handwritten notes in Windows.

1. Take Notes

Place any ordinary paper or notepad on the digital pad. Write on the paper with the digital inking pen.

The digital pad digitally records anything you write in its built-in storage device or an optional CF card in real time.

One page you write is stored as one digital page.

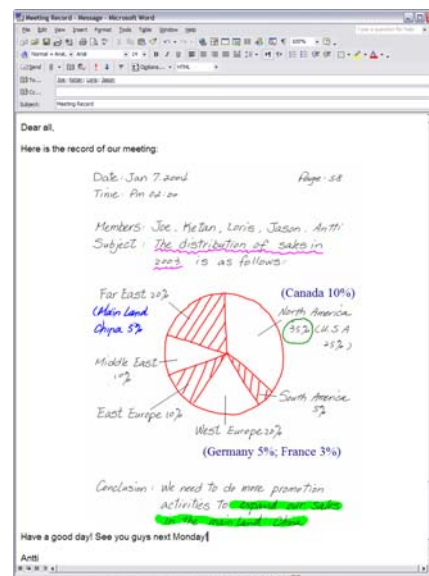

2. Connect to the PC

Connect the digital pad to your PC by an USB port.

3. Organize Your Notes

With its DigiMemo Manager software, you can easily view, edit and organize your digital pages in Windows. Save any digital pages you arbitrarily select as a book file (e-Book).

4. Send via e-Mail

Share your notes with others via e-Mail.

Portable and Compact

- The digital pad can be effortlessly held in one hand or on the lap and easily operated while you are standing, sitting or reclining.
- An ultra-thin & light digital pen with a regular and replaceable ink cartridge.
- Only 560 g (1.24 lbs) for the digital pad and 13.8 g (0.03 lbs) for the digital pen.

Familiar and Natural

- Feel as comfortable as you normally write with a regular pen on paper.
- Immediately get both a digital record and a hardcopy duplicate of your handwritten notes even when you are on the move.
- Instantly & digitally record your notes, ideas, sketches, drawings and flowcharts, without scanning.
- Any ordinary paper or notepad (up to 150 mm x 211 mm / 5.9" x 8.3") can be applied.
- You cannot remember what you typed 10 years ago; however, you will always remember what you wrote.

Powerful and Unforgettable

- Digitally capture & store everything you write with ink on ordinary paper in real time. No computer and special paper is needed.
- A stand-alone device with storage capability, that can be both the built-in 32 Mb storage device in the digital pad and the expandable storage capacity by an optional CompactFlash (CF) memory card.
- The more you write on paper, the bigger file size of the digital page will be.
- The file size of the digital page for one A5-size paper (150 mm x 211 mm / 5.9" x 8.3") with completely full handwritten notes is only about 200 KB.
- Manage up to 999 digital pages for each storage device.
- Capture your handwritten notes up to 12 mm (0.47") thickness of paper (about 120 sheets of paper).
- Can continue to write into the digital page with contents.
- An excellent solution for paper form applications which need a paper copy of the form and digitally filed data.

Efficient

- The battery of the digital inking pen can last approximately 14 months.
- With continuous use of the digital pad, four AAA alkaline batteries can last approximately 100 hours.
- 30 minutes automatic shutdown.

Simple and Manageable

With its DigiMemo Manager software, you can easily organize your digital pages in Windows. Share them with others via e-Mail.

- Save the digital pages you arbitrarily select as a book file (e-Book).
- Page thumbnails function.
- Easily import and remove your digital pages in a book file.
- Highlighting, annotating, editing (select, copy, move, erase ...etc.), typing, viewing, changing color and drawing functions.
- Easily copy or move to another program files such as Outlook e-mail message, Word file or Excel file ...etc
- Can be saved as PDF, TIF, BMP, JPG, GIF or PNG format.

e-Mail

- Easily copy or move to Outlook e-mail message. Send the handwritten e-Mail anywhere anytime!
- Share your e-Book with friends who just need to download the DigiMemo Manager software from ACECAD website so that they can view or edit your e-Book.

Send to Microsoft Office OneNote

Just click and send your handwritten notes to Microsoft OneNote which can be convertible to digital text, organized and searchable..
